Harington Day Service

Supported Horticultural Provision

The Harington Day Service offers structured, horticultural and seasonal craft-based activities for young people and adults with learning differences and or mental health support needs.

Located in Harington's 1.8 acre secure and accessible gardens in Highgate, the service provides purposeful outdoor work, skill building opportunities, and social interaction within a safe and supportive environment.

Our provision promotes wellbeing, confidence, routine, and engagement for individuals who benefit from consistent, meaningful activity.

Activities vary seasonally from sowing seeds and planting, to harvesting produce and preparing stock for our community sales.

**The Day Service will now be running
on Mondays, Wednesdays,
Thursdays and Fridays.**

Individuals can attend independently or with their own support worker, depending on assessed need.

Key features:

- Structured, outcome-focused horticultural activities.
- Highly experienced staff with expertise in supporting people with SEND and/or mental health needs.
- Clear routines, small group settings, and a therapeutic outdoor environment.
- Suitable for individuals seeking purposeful daytime activity, progression, or community engagement.
- Funded through social care packages, personal budgets, or private payments.
- No prior horticultural experience required.
