Skills Pathways

At Harington, we offer bespoke programmes to meet a wide range of needs, with additional English, Maths and work experience placements.

Customer Services

This is a great course if you are ready to try out working in a retail environment. The course will help you learn and practise the skills that employers are looking for such as: communication, helping customers, working safely, and following instructions.

Horticulture

The horticulture pathway is great if you like working outdoors and are interested in becoming a gardener. Yet, the skills you will learn can be used in any job. We have a large site where you will learn and practise gardening skills and our own gardening company that employs some of our students.

Work Experience

You will have the opportunity to access a range of work experience placements through each pathway. This allows you to try different types of roles and work environments and learn and develop the basic skills that all employers look for.

Next Steps...

After completing one of our pathways, we can help you:

- Get a paid job with one of our businesses
- Complete a supported internship
- Access apprenticeships
- Gain a volunteering role
- Access further education
- Get a paid job with one of our partners or elsewhere
